## **OHIO GRATINGS, INC. PROVIDES ALUMINUM DOVETAIL GRATING FOR NATIONAL WORLD WAR II MUSEUM PROJECT IN NEW ORLEANS**

---

Canton, Ohio -- December 8, 2009 -- Ohio Gratings, Inc. (OGi) provided 9,000 sq. ft. of aluminum dovetail grilles for the handrail infill panels and ceiling grids at the National World War II Museum in New Orleans, LA. The materials were used in various parts of the museum including the USO Library, Cafe Library, Temp. Pre Show Area, Theatre Lobby and the Retail Information Areas.

The project was awarded to the architect based on the design theme which included the use of various metal products throughout the interior and exterior of the museum. The colors used were specific to metallic's including silver and battle ship gray. After providing several samples of our aluminum products they decided to specify our dovetail design that was light weight and easy to install.

Ohio Gratings' aluminum grilles are also available up to 6" deep, vary in thicknesses from 1/8" to 1/4" spacing in increments of 1" in either direction, vertical and horizontal bars in equal depth or can be varied to provide a different look.

All of OGi products are manufactured with at least 10% pre-consumer, 40% post-consumer scrap and are 100% recyclable at the end of their life span. They can be used to gain LEEDS credits helping to reduce energy usage along with other benefits.

OGi headquarters and 312,000 square foot manufacturing facility are located at 5299 Southway St. SW, Canton, OH. Their other facilities are located in Ridgeland, SC, Houston, TX, Lindon, UT and Longwood, FL which offer an array of grating products and services that include an inventory of light duty steel, aluminum and complete fabrication services from banding to the most complex fabrication request.

Since 1970, Ohio Gratings, Inc. has manufactured quality bar grating from traditional industrial flooring to architectural applications and offers design, custom fabrication services, engineering support, project budget estimates and shop drawings. Their bar grating products are manufactured from aluminum, carbon steel or stainless steel, are ADA compliant and aesthetically pleasing. Ohio Gratings, Inc. operates in accordance with ANSI (American National Standards Institute) and NAAMM (National Association of Architectural Metal Manufacturers) standards. Some applications of OGi's bar grating products include entranceways, walkways for oil and gas platforms, water and wastewater treatment plants, stair treads, mezzanine decking, sun screens, vent grilles, handrail panels, security screens, louvers, visual barriers, fences, trenches, etc.
