**FOR IMMEDIATE RELEASE**

**CHAIRMAN OF OHIO GRATINGS, INC. RECEIVES MBA DEGREE**

Canton, Ohio -- June 13, 2007 -- David Bartley, Chairman of Ohio Gratings, Inc. (OGI) recently graduated from Case Western Reserve University's Weatherhead School of Management with an Executive MBA Degree. Mr. Bartley is a member of the Church of the Lakes, is an active participant with Habitat for Humanity and Salvation Army and resides locally with his wife and four children.

Ohio Gratings, Inc. headquarters and 212,000 sq. ft. manufacturing facility are located at 5299 Southway Street, SW, Canton, OH. They also have a second 15,000 sq. ft. Southern facility in Ridgeland, South Carolina that offers an array of grating products and services including a generous inventory of light duty steel grating and aluminum. This Southern facility also provides fabrication services from end banding to the most complex fabrication request. Since 1970, OGI has manufactured one quality product, bar grating. Based on their motto "Make It Right and Ship When Promised," OGI is the market leader in quality and service in all bar grating products. They also manufacture a variety of pressure locked bar grating of light duty carbon, aluminum and stainless steel. These styles are also part of their Grater Access<sup>®</sup> line of close mesh products. For rolling loads, they offer heavy duty steel products including their exclusive Wheels n' Heels<sup>®</sup> which meet the load requirements of AASHTO and pedestrian requirements of ADA (Americans With Disabilities Act).

From traditional industrial flooring to architectural applications, Ohio Gratings, Inc. offers extensive design and custom fabrication services with design commentary, engineering support, budget estimates for your projects and shop drawings. They operate in accordance to ANSI (American National Standards Institute) and NAAMM (National Association of Architectural Metal Manufacturers) standards.

Some applications of their bar grating include entranceways, sun screens, vent grilles, handrail panels, ceiling tiles, security screens, visual barriers, fences, trenches and water & wastewater treatment plants.
