

PRESSLOCK BAR GRATING

ECONOMICAL SUBSTITUTE FOR LIGHT DUTY WELD FORGE GRATING

PRESSLOCK GRATING

VS

WELD FORGE GRATING

- Flexible spacing options in 7/16" increments for bearing and cross bars
- Flush bearing and cross bars for better rolling surface
- Custom designed for most economical solution
- Available in wider panel widths
- Product includes full perimeter band

- Standard bearing and cross bar spacings
- Twisted cross bars - not flush
- Minimal value engineering options
- Standard panel widths up to 3'
- Additional cost for end band

MORE OPTIONS + BETTER EFFICIENCY = GREATER VALUE!
